DEENA R

Full Stack AI Engineer | Associate Software Engineer
Chennai, India | +91-9025282820 | rdeena549@gmail.com | LinkedIn Profile

PROFESSIONAL SUMMARY

Full Stack Developer with 4+ years of hands-on professional experience building robust, large-scale web and mobile applications. Currently an Associate at Cognizant within the Insurance R&D Delivery team, specializing in developing AI-integrated solutions, cloud architectures, and cross-platform applications. Proficient in the complete software development lifecycle (SDLC), utilizing the MERN stack, Java, iOS Swift, and modern cloud services (AWS, Azure). Experienced in building RAG applications and integrating LLM models to drive innovation in collaborative Agile environments.

TECHNICAL SKILLS

- **Frontend & Mobile:** React.js, iOS Swift, Android, HTML5, CSS3, JavaScript, TypeScript
- **Backend:** Node.js, Express.js, Nest.js, Java
- **Database:** MongoDB, MySQL, PostgreSQL, Redis
- **Cloud & DevOps:** AWS (S3, Lambda, API Gateway, EC2, DynamoDB), Azure,Docker, Apache Kafka, GitHub, GitLab, CI/CD Pipeline, Jira, Swagger
- **AI Tools & Integration:** Windsurf, Claude, Codex, LLM Models Integration, RAG Application Development

PROFESSIONAL EXPERIENCE

Cognizant | Chennai, India
Associate (Insurance R&D Delivery) | April 2025 - Present

- Develop and maintain enterprise web and mobile applications for the Insurance R&D team, utilizing Java, React, Node.js, and iOS Swift.
- Engineered health and insurance-related projects, including building an Android application for Pepper Robot.
- Architected and deployed scalable cloud solutions using AWS services (S3, Lambda, API Gateway, EC2).
- Integrated various LLM models and built RAG (Retrieval-Augmented Generation) applications to enhance data retrieval and processing capabilities.
- Leveraged AI development tools including Windsurf, Claude, and Codex to accelerate development workflows.

Openwave Computing Services Pvt Ltd | Chennai, India
Software Engineer | Nov 2023 - Jan 2025

- Developed and maintained CRM web and mobile applications using Node.js, contributing to all stages of the software development lifecycle.
- Optimized application performance and scalability through database optimization, code refactoring, and performance tuning techniques.
- Integrated Socket.io to enable real-time messaging, enhancing communication features within the application.
- Implemented Firebase Cloud Messaging (FCM) for push notifications, improving user engagement and real-time updates.

- Authored requirement specification documents, maintained detailed documentation, and conducted unit testing to ensure high-quality deliverables.
- Designed and implemented a Financial Management (FM) module for handling profit and loss calculations, ensuring accuracy and efficiency in financial tracking.

Censanext Systems Pvt Ltd | Chennai, India
Associate Software Developer | Nov 2022 - Nov 2023

- Developed and maintained e-commerce web applications using Node.js and React.js, contributing to all stages of the software development lifecycle.
- Created reusable and efficient React components for dynamic user interfaces, improving code maintainability and reusability.
- Designed and integrated Apache Kafka for real-time data streaming and event-driven architecture, ensuring efficient handling of large-scale data processing.
- Utilized Docker to containerize applications, improving deployment consistency and scalability across different environments.
- Involved in code reviews, unit testing, and troubleshooting to maintain code quality and ensure a seamless user experience.

StacksNova Global Corp Pvt Ltd | Chennai, India
Junior Software Developer | Dec 2021 - Nov 2022

- Developed and maintained e-commerce and CRM web applications using Node.js and React.js, contributing to all stages of the software development lifecycle.
- Implemented REST APIs for seamless communication between the frontend and backend systems, ensuring efficient data flow and application performance.
- Implemented Azure Blob Storage for secure and scalable file handling, enabling efficient storage, retrieval, and management of user-generated content.

PROJECTS

Health & Insurance R&D Projects | React, Node, Java, Swift, Android, AWS, LLMs

- Built robust web and mobile (iOS/Android) applications, including a specialized Android app for Pepper Robot, integrating AWS cloud services (S3, Lambda, API Gateway, EC2 & others) and LLM models for intelligent RAG applications.

MindChamps Education | Node.js, PostgreSQL, Firebase, Socket.IO

- Developed an education platform for MindChamps with features such as course management, student enrollment, and content delivery, ensuring a scalable and efficient solution for educators and learners.

Financial Management | Node.js, PostgreSQL, Swagger

- Built a franchise management application for MindChamps, providing comprehensive insights into franchise performance with detailed revenue, profit calculations, and operational metrics.

Waycool 2.0 | Node.js, Redis, MongoDB, AWS, Apache Kafka

- Led the development of Waycool's e-commerce platform (v2), emphasizing scalability, performance optimization, and enhanced logistics integration.

SunnyBee | Node.js, React.js, Docker, MySQL

- Created an end-to-end e-commerce platform for SunnyBee, incorporating product management, order processing, and payment system integration.

Case Management System | Node.js, MSSQLServer, Redis, Swagger, Azure

- Designed a case management system for a customer helpline, incorporating features like ticketing, case tracking, and customer communication tools.

Customer Relationship Management | React.js, Nest.js, MongoDB

- Built a CRM system with React.js for the frontend and Nest.js for the backend, enabling efficient customer interaction management, sales tracking, and service optimization.
- Designed an intuitive user interface to enhance user experience and operational efficiency.

Indian Pistol Limited | Node.js, MySQL, Swagger, Azure, Redis

- Developed and maintained a full-stack e-commerce platform for Indian Pistol Limited, integrating payment gateways, user authentication, and order processing for a seamless shopping experience.
- Leveraged MySQL for robust and secure data management, ensuring reliable transaction handling.

EDUCATION

- Master of Computer Applications (MCA) | University of Madras
- B.SC Computer Science | Thiruthangal Nadar College - 2021
